

Amira Boubaker

Full-Stack Web Developer

Monastir, Tunisia — +216-24-503-203 — amiraboubakeresprims@gmail.com

Portfolio — LinkedIn — GitHub — LeetCode

Profile

Full-stack web developer focused on building modern applications with React, TypeScript, Node.js, REST APIs, and MySQL. Hands-on experience delivering AI-enabled products, scalable backend services, and production-ready user interfaces with an emphasis on clean architecture, maintainability, and end-to-end delivery.

Core Skills

Frontend: ReactJS, React Native, TypeScript, JavaScript, Dart, responsive UI development

Backend: Node.js, Express.js, Symfony 6, .NET, REST APIs

Databases & Cloud: MySQL, Firebase, MongoDB, Oracle, SQL Server

Tools: Git, Figma, Agile/Scrum, UML, Xcode, VS Code

Experience

Software Engineer, ESPITA (Sousse)

Mar 2026 – Present

- Building and delivering three institutional web applications for ESPITA, ESEAC Sfax, and EMP Sousse.
- Designed AI-driven chatbot assistants that answer main user questions and improve self-service across the websites.
- Focused on scalable web delivery, clean architecture, and user-facing interfaces aligned with modern full-stack development practices.

React Native Developer, Mobelite (Monastir)

Feb 2025 – Jul 2025

- Delivered JourneyBuddy, an AI-assisted travel app used by 50K+ users.
- Integrated maps and an AI chatbot to personalize trip recommendations.
- Built a modular mobile architecture designed for scalability, maintainability, and smooth feature expansion.
- Owned mobile release flow, including APK/AAB generation and distribution.

Software Engineer Student, ESPRIM (Monastir)

Oct 2024 – May 2025

- Built a full-stack e-commerce platform (Ktabinet) for online book sales.
- Implemented inventory and payment workflows using Symfony 6 and MySQL.
- Worked on structured backend logic, relational data modeling, and API-driven application flow.

Software Engineer Intern, Nexans (Monastir)

Jul 2024 – Sep 2024

- Developed ECTRH, a mobile HR app for employee data and team tracking.
- Implemented workflow automation to streamline HR operations and simplify daily team management.
- Collaborated in an Agile environment with a focus on delivery, maintainability, and operational efficiency.

Projects

Eseac (2026)

Full-stack web application with chatbot and administration dashboard

- Supports new students, candidats, and visitors to interact with Eseac content and news manually or through a chatbot.
- Includes administration features to manage students, teachers, and candidats.
- Highlights modern web delivery, content management, and backend-backed user interaction.
- GitHub: github.com/amiraboubaker/eseac/

JourneyBuddy (2025)

React Native, Node.js, MongoDB, AI Chatbot

- AI trip-planning app for agencies and travelers with personalized recommendations.
- Demonstrates API integration, dynamic user flows, and scalable full-stack application design.
- GitHub: github.com/dghama/journeyBuddy-INT2

HealthTracker (2025)

React Native, Firebase, AI Chatbot

- Wellness app for sleep, nutrition, and hydration tracking with AI coaching.
- Reinforces experience building interactive frontends and user-centered digital products.
- GitHub: github.com/amiraboubaker/HealthTracker

Education & Certification

Engineering Degree in Computer Engineering, ESPRIM (Monastir)
Specialization: Software Engineering

Sep 2022 – Jul 2025

AI Engineer for Data Scientists – Associate, DataCamp
