

Amira Boubaker

Software Developer & Full-Stack Developer

Monastir, Tunisia — +216-24-503-203 — amiraboubakeresprim@gmail.com

Portfolio — LinkedIn — GitHub — LeetCode

Profile

Software and Full-Stack Developer focused on developing modern web and mobile applications, with practical experience in creating AI-integrated products and scalable APIs. Strong in end-to-end delivery, clean architecture, and user-centered solutions.

Key Skills

Frontend: React Native, ReactJS, TypeScript, JavaScript, Dart

Backend: Node.js, Express.js, Symfony 6, .NET, REST APIs

Databases & Cloud: Firebase, MySQL, MongoDB, Oracle, SQL Server

Tools: Git, Figma, Agile/Scrum, UML, Xcode, VS Code

Experience

Software Developer, ESPITA (Sousse)

Mar 2026 – Present

- Development and delivery of three institutional web applications for ESPITA, ESEAC Sfax, and EMP Sousse.
- Design of AI-powered chatbot assistants to answer key user questions and improve self-service capabilities.
- Focus on high-impact digital experiences, clean architecture, and scalable delivery across multiple educational platforms.

React Native Developer, Mobelite (Monastir)

Feb 2025 – Jul 2025

- Delivery of JourneyBuddy, an AI-assisted travel application used by over 50K users.
- Integration of maps and AI chatbot to personalize travel recommendations.
- Design of a modular mobile architecture built for scalability, maintainability, and smooth feature evolution.
- Management of mobile publishing workflow, including APK/AAB generation and distribution.

Software Engineering Student, ESPRIM (Monastir)

Oct 2024 – May 2025

- Development of a full-stack e-commerce platform (Ktabinet) for online book sales.
- Implementation of inventory and payment workflows with Symfony 6 and MySQL.

Software Engineering Intern, Nexans (Monastir)

Jul 2024 – Sep 2024

- Development of ECTRH, an HR mobile application for employee data and team management.
- Implementation of workflow automation to streamline HR operations and daily team management.

Projects

Multi-Agent AI Hub (September 2026)

Modular AI platform with intelligent task routing

- Modular platform bringing together specialized agents for software development, data science, AI/ML, cybersecurity, DevOps, mobile and web development, career, business, research, automation, testing, and more.
- Includes an intelligent coordinator that routes tasks to the right agent.
- GitHub: github.com/amiraboubaker/Agent

ESEAC (2026)

Full-stack web application with chatbot and admin dashboard

- Enables new students, applicants, and visitors to interact with ESEAC content and news, manually or via chatbot.
- Includes admin functions to manage students, teachers, and applicants.
- GitHub: github.com/amiraboubaker/eseac/

JourneyBuddy (2025)

React Native, Node.js, MongoDB, AI chatbot

- Travel planning application with personalized recommendations for agencies and travelers.
- GitHub: github.com/dghama/journeyBuddy-INT2

Education & Certification

Certification of Completion: CI/CD Concepts, le bon développeur, Tunisie

11 Jul 2026 – 10 Sep 2026

Software Engineer Degree, Esprim, Monastir

Sep 2022 – Jul 2025
