

Amira Boubaker

Junior Full-Stack Developer (Java / Angular)

Monastir, Tunisia — +216-24-503-203 — amiraboubakeresprims@gmail.com

Portfolio — LinkedIn — GitHub — LeetCode

Profile

Junior full-stack developer with 1+ year of hands-on experience delivering reliable web and mobile applications. Motivated to contribute to Java/Spring and Angular projects with a strong focus on code quality, performance, clean architecture, and continuous improvement. Collaborative, proactive, and comfortable in agile teams with French and English communication.

Core Skills

Frontend: Angular, TypeScript, HTML5, CSS3, React Native, ReactJS, JavaScript

Backend: Java, Spring, Spring Boot, Node.js, Express.js, Symfony 6, .NET, REST APIs

API & Testing: REST API design, JSON serialization, Postman, Swagger/OpenAPI, unit testing (JUnit basics)

Data & Persistence: MySQL, MongoDB, Oracle, SQL Server, JPA/Hibernate basics

DevOps & Tools: Maven/Gradle basics, Docker basics, CI/CD concepts, Git, Agile/Scrum, UML, VS Code

Languages: French, English

Experience

Software Engineer, ESPITA (Sousse)

Mar 2026 – Present

- Building and delivering three institutional web applications for ESPITA, ESEAC Sfax, and EMP Sousse.
- Participating in technical and functional design phases with project stakeholders to define scalable solutions.
- Applying code optimization, documentation, code review practices, and structured bug tracking to improve delivery quality.

React Native Developer, Mobelite (Monastir)

Feb 2025 – Jul 2025

- Delivered JourneyBuddy, an AI-assisted travel app used by 50K+ users.
- Built a modular architecture designed for scalability, maintainability, and reliable feature evolution.
- Integrated REST APIs and managed mobile release flow (APK/AAB generation and distribution).

Software Engineer Student, ESPRIM (Monastir)

Oct 2024 – May 2025

- Built full-stack e-commerce platform (Ktabinet) for online book sales.
- Implemented inventory and payment workflows using Symfony 6 and MySQL with emphasis on maintainability.

Software Engineer Intern, Nexans (Monastir)

Jul 2024 – Sep 2024

- Developed ECTRH, a mobile HR app for employee data, team tracking, and workflow automation.

Projects

Eseac (2026)

Full-stack web application with chatbot and administration dashboard

- Supports students and visitors through chatbot-guided interactions and an administration dashboard.
- GitHub: github.com/amiraboubaker/eseac/

JourneyBuddy (2025)

React Native, Node.js, MongoDB, AI Chatbot

- AI trip-planning app for agencies and travelers with personalized recommendations.
- GitHub: github.com/dghama/journeyBuddy-INT2

Education & Certification

Engineering Degree in Computer Engineering, ESPRIM (Monastir)

Sep 2022 – Jul 2025

Specialization: Software Engineering

AI Engineer for Data Scientists – Associate, DataCamp
