

Amira Boubaker

Full Stack Developer - ReactJS / NodeJS

Teboulba, Monastir, Tunisia — +216-24-503-203 — amiraboubakeresprims@gmail.com

Portfolio — LinkedIn — GitHub — LeetCode

Profile

Experienced Full Stack Developer specializing in ReactJS and NodeJS. Passionate about building scalable, high-performance web applications with modern JavaScript/TypeScript technologies. Proven expertise in developing with React Native, Redux/MobX state management, and robust backend solutions. Strong problem-solving skills and commitment to clean code and best practices.

Core Skills

Frontend: ReactJS, React Native, NextJS, TypeScript, JavaScript, Redux, MobX

Backend: Node.js, Express.js, PHP, REST APIs

Databases & Cloud: Firebase, MySQL, MongoDB

Tools: Git, VS Code, Agile/Scrum, Postman

Languages: French, English, Arabic

Experience

Full Stack Developer, ESPITA (Sousse)

Mar 2026 – Present

- Developing full-stack web applications using ReactJS frontend and NodeJS backend.
- Implemented responsive UI components with React and managed complex state using Redux.
- Built RESTful APIs with Node.js and Express, ensuring scalability and performance optimization.
- Collaborated with cross-functional teams using Agile/Scrum methodology.

Full Stack Developer, Mobelite (Monastir)

Feb 2025 – Jul 2025

- Developed cross-platform mobile application using React Native with TypeScript.
- Created backend APIs with Node.js and integrated MongoDB database for data persistence.
- Implemented state management using MobX for optimal performance and code organization.
- Deployed and maintained production applications, ensuring stability and performance.

Full Stack Developer Intern, ESPRIM (Monastir)

Oct 2024 – May 2025

- Built full-stack e-commerce platform using ReactJS frontend and NodeJS backend.
- Implemented RESTful APIs with Express.js and MySQL database design.
- Developed responsive UI components and integrated payment processing.

Junior Developer, Nexans (Monastir)

Jul 2024 – Sep 2024

- Developed mobile application using React Native for HR operations and team management.
- Built backend services with Node.js to handle employee data and tracking features.
- Worked with databases and implemented API endpoints for data synchronization.

Projects

Eseac (2026)

ReactJS, Node.js, MongoDB, Redux

- Full-stack web application built with ReactJS and NodeJS for educational platform management.
- Implemented complex state management with Redux for seamless data flow.
- Created RESTful APIs and responsive UI components for optimal user experience.
- GitHub: github.com/amiraboubaker/eseac/

JourneyBuddy (2025)

React Native, Node.js, MongoDB, TypeScript

- Cross-platform mobile application using React Native with full backend support.
- Developed Node.js backend with Express.js and MongoDB for data persistence.
- Implemented real-time features and optimized API performance.
- GitHub: github.com/dghama/journeyBuddy-INT2

HealthTracker (2025)

React Native, Firebase, TypeScript

- Mobile wellness application built with React Native and TypeScript.
- Integrated Firebase for real-time database and authentication features.
- GitHub: github.com/amiraboubaker/HealthTracker

Education

Engineering Degree in Computer Engineering, ESPRIM (Monastir)
Specialization: Software Engineering

Sep 2022 – Jul 2025
